

LIVING THROUGH LEARNING

TRAINING AND PRACTICALS REMAINS A KEY FOCUS FOR LTL

Ongoing training with our educators and practical interventions in class will always be a top priority for LTL. Sonja Botha, founder of LTL is seen in the photo on the left conducting a one on one session at Cypress Primary with educator Ms. September and facilitator Ms. Joubert earlier this month. We love seeing this interaction and keeping teaching alive!

LTL WILL BE ENTERING A NEW SCHOOL IN TERM 3

Renovations are currently underway at Valhalla Primary School to get ready for a brand new Literacy Adventure Room. LTL is pleased to announce the new partnership with Sun International and look forward to assist the learners with their literacy needs at Valhalla Primary.

Exciting things are happening in the background with regards to our social media platforms, keep an eye out for new content!

HOLIDAY PROGRAMME

Our termly holiday programme is in full swing at Levana Primary and Nooitgedacht Primary. We also invited our learners from Hillwood Primary to join us next door and be part of the fun at Levana.

This holiday programme LTL is focusing on revision from term 1 and term 2 to ensure our learners are 100% competent in their reading and writing abilities.

"I am very excited to be here at the holiday program. I like learning about being respectful and taking care of the things in the classroom. I am going to come here every day so that I can do good in my school work". - Willow Harris Grade 1D - Levana Primary

"LTL is actively working towards expansion in 2023. LTL is expanding into the digital market to create a greater awareness of our literacy achievements and to also build a strong brand recognition. Business growth is important in order to seek out additional options to generate more donor base support as well as keeping focused on the goal of reversing the dwindling spiral in education".

- Sonja Botha (Founder and Executive Director LTL)
